PROJECT EXPERIENCE

E-SHOP E-commerce Web App --- *Freelance*
Frontend Developer --- Remote
Tech: React, Vite, Redux, Tailwind CSS
- Designed and developed a fully functional multi-page e-commerce site from scratch including dynamic product filtering, cart functionality, checkout flow, and order confirmation.
- Implemented redux for scalable state management and used slices to modularize features.
- Built reusable components,optimized layout responsiveness, and enhanced UI transitions with Framer Motion.
- Optimized frontend performance, reducing page load times by 35% and ensuring a smooth and responsive experience across all devices.

Podcast Landing Page --- *Freelance*
Frontend Developer --- Remote
Tech: HTML, CSS, Javascript
- Developed and coded a responsive landing page for a podcast brand with smooth hover transitions and modern visual appeal.
- Structured with semantic HTML5 and custom CSS, ensuring good accessibility and responsiveness across screen sizes.

Mobile Music Player Landing Page --- *Personal Project*
Frontend Developer --- Remote
Tech: HTML, CSS, Javascript
- Built a clean and responsive landing page for a fictional banking app using utility-first CSS with well-structured layout and animations.
